

*Healthy...naturally!*

50 years ago, we at Mapro Foods set up a small cottage industry to manufacture jams and jelly sweets from hand-picked fruits in the salubrious climate of Panchgani. The tradition has stayed on, and today we manufacture a range of products from hand-picked fruits, including strawberries from our own plantations, in the very lap of nature, in and around Mahabaleshwar-Panchgani. No wonder our products are healthy... naturally!
